More Harmful Than Alcohol

Overeating Worst Form of Intemperance.

If your food is undigested, you are underfed, no matter how much you eat. And the underfed man is, to the extent of the underfeeding, crippled for the battle of life. On the other hand, there is such a thing as overeating. The harm done by indigestion caused by overloaded stomachs exceeds that from the increased heart beats caused by the use of alcohol or whiskey.

Eat as much good food as you need but don't overload the stomach. If your stomach is weak it may refuse to digest what you eat. Then you ought to use a good digestant like Kodol Dyspepsia Cure, which digests what you eat without the stomach's aid. This rest and the wholesome tonics contained in Kodol Dyspepsia Cure soon restore health. You don't have to diet. Don't eat too much. That's harmful. But eat enough and of sufficient variety. Kodol Dyspepsia Cure will digest it. It quickly relieves the sensation of fulness and bloating from which some people suffer after meals. It prevents belching and absolutely cures indigestion and other stomach troubles. Equally good for children.

Lemuel James, Marysville, O., says: "I suffered from dyspepsia for thirty years but a few bottles of Kodol Dyspepsia Cure completely cured me and I heartily recommend it to all sufferers from this disease."

A HURRIED VISIT

President Mitchell Has Mysterious Conference In New York.

MINERS REMAIN FIRM

Local Unions Unanimously Declare That Work Will Not Be Resumed Without Concessions.

Loyal Support Given to Their President By Striking Anthracite Delvers.

Wilkesbarre, Pa., Oct. 9.—Unless President Mitchell's hurried visit to New York bears fruit, the end of the mine workers' strike seems a long way off and the prospect of sufficient coal being mined to satisfy the public demand is extremely poor. Every local union of the miners' organization throughout the hard coal belt held special meetings yesterday and resolved to remain on strike until the mine owners grant them some concessions. And while the representatives of these meetings came pouring into Wilkesbarre, President Mitchell dictated a letter to the president of the United States, in which he gave his answer to the proposition that the strikers return to work and trust to have their condition improved through an investigating commission. What the answer of the miners' chief is he refused to divulge, but it is difficult to conceive that with the replies of the local unions piled around him, he could do otherwise than respectfully decline the president's proposition. Mr. Mitchell sent his letter to Washington before he had heard from all the locals, and late in the afternoon, accompanied by the three district presidents, left for New York. His mission there is also a secret. As New York is the headquarters of the coal operators, a rumor immediately spread that a settlement was in prospect, but Mr. Mitchell and his colleagues would not say whom they expected to meet.

Additional troops for this region have not yet arrived, and the general strike situation remains unchanged. The coal company officials have nothing to say beyond the fact that they are awaiting developments. There is no increase in the shipment of coal, very little of which is being produced. No violence is reported, and in fact there has been very little since the troops were stationed here. Speculation as to whether the presence of all of the troops will increase the coal production is still indulged in. The production since the Ninth regiment has been in this valley has not increased. And if the resolutions adopted by the local unions yesterday indicate anything, it is not likely that much coal will be shipped to market for some time.

Secret Conference.

New York, Oct. 9.—President Mitchell's conference with Senators Penrose and Quay lasted for an hour and three-quarters. At its conclusion Mr. Mitchell returned to the Ashland House. He declined to say a word as to his talk with the senators, and the latter left word with the clerk at the Fifth Avenue hotel that they would not see anyone, instructing the clerk to refuse the cards of any persons who might wish to interview them.

ALL ON DUTY

Entire Pennsylvania National Guard Now In Strike Field.

Philadelphia, Oct. 9.—The entire national guard of Pennsylvania is encamped today in the anthracite coal regions, the last regiment from the western part of the state having arrived late yesterday afternoon. Contrary to expectations, the troops were well received and there was no disposition on the part of the strikers to annoy the soldiers. Universal quiet reigns throughout the entire region. The fact that all of the locals throughout the anthracite region have voted unanimously to continue the strike, would indicate that the presence of the troops will have but little effect upon forcing the men to return to work, and from present indications it would seem that the settlement of the strike is no nearer a solution than it has been for manay weeks.

Words of Cheer.

Springfield, Ill., Oct. 9.—W. R. Russell, president; Thomas J. Reynolds, vice president, and W. D. Ryan secretary-treasurer of the United Mine Workers of Illinois, sent the following dispatch to National President John Mitchell last night: "Don't give up the ship. Forty thousand mine workers in Illinois are with you in this fight to a finish. Nothing is ever settled until it is settled right."

Fruitless Mission.

Philadelphia, Oct. 9.—The visit to this city of the committee representing the National Association of Manufacturers for the purpose of conferring with the presidents of the anthracite coal carrying roads who last week met President Roosevelt and the officials of the miners' union at Washington, appears to have been fruitless. The committee spent the greater part of the day at the Manufacturers' club, awaiting the appearance of the presidents, but none of the latter answered

CAPITAL GOSSIP

Some Bits of Information By Our Indianapolis Correspondent.

Indianapolis, Oct. 9.—Harry Strohm of Kentland, retiring president of the Tenth Congressional District Postmaster's association, was in Indianapolis yesterday. There has been more or less speculation regarding the true inwardness of the association. Some have charged that it was purely political and that it would gather funds for the Republican state committee. Strohm says the association is a social organization, and there was no mention of campaign funds. Strohm has been one of the fighters in the efforts to move the Newton county seat from Kentland. The Kentlandites defeated Morroco, but in turn were defeated by Goodland. The county council, however, has refused to make an appropriation for a new building, and a suit has been instituted to determine the constitutionality of the law under which the election to decide on a location was held. The fight over the Newton county seat has attracted wide attention, as it has been going on for more than twenty years.

It will probably be known a month from today whether or not Indianapolis is to get the army post and the technical institute. Secretary Root of the war department has announced that the arsenal grounds will be offered for sale. Appraisers have been appointed. The promoters of the technical institute have made a vigorous canvass for funds, but are still several thousand dollars short of the required sum—$150,000. The citizens, however, are manifesting much interest in the movement to secure the institute. Business men generally are deeply interested in the prospect of securing an army post, as it is believed that it will greatly increase their revenues.

The sporting fraternity was given quite a shock by the decision of the supreme court in the appeal of a case from Sullivan county. The court held plainly that a prize-fight means nothing more nor less than a prize-fight, and that when two men engage by arrangement in a fistic encounter for a prize that there can be no mistake in what has happened. In other words, the "scientific" boxing matches for points, and a purse on the side, are nothing more nor less than a prize-fight under this construction. The decision may have a tendency to strengthen the weak-kneed police and sheriffs who have permitted fights under the guise of boxing matches.

The presence of Representative Jas. E. Watson of Rushville here for two days has revived the political gossip about him. Many party workers can't get away from the idea that he intends to be a candidate for the Republican nomination for governor in 1904. Watson has the bee all right enough, but he proposes to keep it from buzzing too loudly for the present. He says he is not a candidate, but many believe that if he thought there was a good opening that he would enter the race. Watson's friends are numerous, and they think he is making a record in congress that will entitle him to careful consideration for future political honors.

George A. H. Shideler of Marion, as jovial and big as ever, was here during the grand lodge meeting of the Knights. Shideler is a man of many business enterprises, and he seems glad that he is no longer warden of the state prison at Michigan City. He has full confidence in the future of Marion as a business center. Shideler is regarded as a candidate for the Republican nomination for governor in 1904, and much quiet missionary work is being done for him.

Remembered the Dead.

Danville, Ky., Oct. 9.—The state monument to the memory of the Confederate soldiers who fell during the battle of Perryville and who are buried there was unveiled at Perryville yesterday in the presence of a vast multitude, estimated at nearly 10,000. Orations were made by Judge M. C. Saufley, Hon. R. J. Breckinridge, and General J. A. West. Miss Ella Hay unveiled the shaft.

Suicide In a Hotel.

St. Paul, Oct. 9.—L. C. Hayes, supposed to be a government agent in Montana, committed suicide by shooting at the Merchants hotel yesterday. He left a note asking that Horace Hayes, Elizabethtown, Ky., be notified of his death. He had a railroad ticket calling for transportation from Chicago to Harlem, Mont. He came to the hotel last Monday and had complained of not feeling well.

Caught At Crossing.

Youngstown, O., Oct. 9.—An automobile containing Harry Todd, John Todd, Frank Silver and Charles Stitt was run down by an Erie train yesterday. Harry Todd was instantly killed and Charles Stitt received slight injuries. The others escaped injury. Harry Todd was a grandson of the late Governor Todd of Ohio.

Deadly Explosion.

Lima, O., Oct. 9.—Earl Bush, married, and Frank Anspaugh, unmarried, were torn to pieces by an explosion of nitro-glycerine at the factory of the Producers' Explosive company three and a half miles from here, yesterday.

Keeping the Agreement.

Pekin, Oct. 9.—The Manchurian territory lying south of Liau river was restored to the Chinese yesterday in accordance with the Manchurian agreement.

A TRIO OF CLAIMS

Three Cities Want the Grand Army Encampment Next Year.

NONE MAY WIN PRIZE

Feeling On the Part of the Veterans That a Mississippi Valley City Should Be Selected.

Thirty Thousand Old Soldiers Swung Into Line In the Grand Parade.

Washington, Oct. 9.—For more than six hours yesterday the people in Washington hummed the chorus of the civil war song, "Tramp, Tramp, the Boys Are Marching," and for an equal time the veterans constituting the Grand Army of the Republic made good the claim. The parade was the climax of the thirty-sixth encampment of their order. The occasion was in every way worthy of the Grand Army, and the parade did not fail appropriately to delineate the spirit of the war and the memory of glorious achievements the army seeks to keep green in the minds of the American people. It was almost 5 o'clock when the last squad in the line had passed the place of disbandment west of the White House. None of the soldiers were marching any great part of the time, for the entire line of march did not exceed two and a half miles in length, but those who composed the rear detachments were on their feet practically all day, much of the time being consumed in waiting to take their places in the line. The route of the parade was down historic Pennsylvania avenue, along which many of them marched as raw recruits in going to the war in 1861 and 1862, and many others on the occasion of the grand review after the close of the war in 1865. The participants in the imposing pageant entered with life and vigor into the spirit of the occasion. Each countenance bore evidence of the joy the experience brought to the individual, but it was plainly evident that there was in the occasion much of the restoration of youth for most of them. The "old boys" for the time being evidently were re-living the days of their youth. Not many of them exhibited traces of age in their marching. Almost without exception they walked along with alacrity and kept step with precision.

If the veterans had needed any spur to their enjoyment they would have found it easily in the crowds who thronged their pathway and in the smile which providence bestowed upon them, for the weather was perfect. The spectators were limited in numbers only by the capacity of the broad sidewalks, the stands, the parks, the windows and the housetops along the line of march to hold them. The government departments and the schools were closed for the day and practically the entire population of Washington turned out to do honor to the veterans along with the hundred thousand visitors to the city.

The president of the United States also lent his energies to the entertainment of the capital's guests. Unable to endure the strain of reviewing the column from a stand, he rose from his reclining chair and had himself driven up and down the line. The unusual interest thus manifested was appreciated by the old soldiers, and the president was everywhere received by them with loud applause. There were at least 25,000 men in line, and the estimate of Commander-in-Chief Torrance ran as high as 30,000 men.

The three active candidates for the honor of entertaining the G. A. R., at the next annual encampment are Saratoga, Atlantic City and San Francisco. There seems to be quite a sentiment in favor of choosing some city between the Ohio and Mississippi rivers, and it is said that the encampment may go to neither of the three cities named if a city in the middle West actively pushes its claims. The leading candidates for commander-in-chief are Gen. Stewart of Pennsylvania, Gen. John C. Black of Illinois, Col. McElroy of Washington, and Gen. Daniel Sickles of New York. Gen. Stewart is thought to have the lead at present, though Gen. Black's friends claim about an equal number of delegates pledged.

FIERCE RIOTS

Long Expected Conflict Breaks Out At New Orleans.

New Orleans, Oct. 9.—As a result of the riot incident to the street railway strike yesterday all the militia in the city was ordered under arms last night. The attempt of the New Orleans Railways company yesterday to start cars on its lines, which have been completely tied up for eleven days, precipitated a long-impending conflict between the strikers and those who attempted to fill their places. Although a hundred shots were fired nobody was killed, but six policemen were injured and ten strike breakers more or less hurt. The street railway company announces its determination to run its cars. The strikers, who have stood firm from the start, are as determined as ever, while the citizens who have been walking and riding in all manner of conveyances for four days more than a week, confidently expect trouble.

SENT TO HONG KONG

Why Gen. Bragg Lost Fat Job at Havana.

Washington, Oct. 9.—General Edward S. Bragg, consul general at Havana, has been transferred to the post of United States consul general at Hong Kong, taking the place of Wm. A. Rublee, who has bene transferred to the consulate at Havana. The change in the Havana consulate general has been in contemplation for almost three months. Although it is realized that General Bragg has been guilty of a lack of judgment at least in allowing to escape from him a rather contemptuous criticism of the Cuban people, in view of the fact that he was not directly responsible for its publication, the president decided to look on his case with a lenient eye.

Early in July General Bragg wrote a letter to his wife at her home in this country, in which he used this language: "Uncle Sam might as well try to make a whistle out of a pig's tail as to try to make something out of the Latin race." The letter was published on July 14th. A few days later the Cuban government asked Mr. Squiers, our minister to Havana, if the quotation was authentic, intimating that if it were so General Bragg probably had destroyed his usefulness at Havana. By direction of the state department Mr. Squiers called on General Bragg for an explanation. He at once admitted the accuracy of the quotation, but held that he had a right to write what he pleased in a purely personal letter to his own family. But without discussing this question with the general, the state department decided that a change must be made, and set about to find another place for General Bragg.

THIRTY CADAVERS

Gruesome Find In a Louisville Cold Storage Plant.

Louisville, Ky., Oct. 9.—Thirty dead bodies were found last night in a cold storage plant in the rear of an ice-cream factory on Eighth street. The same pipes which were used in congealing the cream for table use were connected with a small plant in a shed in the rear where they kept the bodies cool. It was at first thought that cadavers had been brought here from Indianapolis, where many graves have been robbed lately, but the heads of the several colleges interested in the establishment asserted that the bodies were obtained legitimately by them from the penitentiaries, insane asylums and other institutions of the state of Kentucky.

Under Martial Law.

Glens Falls, N. Y., Oct. 9.—This city is still under semi-martial law, because of the strike of the motormen of the Hudson Valley Electric railway, the militia patrolling the streets after dark. Henry L. Ramsey, secretary of the Central Trades and Labor assembly, was arrested yesterday, charged with rioting.

St. Petersburg, Oct. 9.—A. A. Prozolor, son of the chairman of the St. Petersburg bourse, and nine sailors have been shipwrecked and drowned off the Kamchatka peninsula. M. Prozolor was known as a political economist.

HE LEFT A NOTE

Fountain County Farmer Reported As Mysteriously Missing.

SUSPICION OF SUICIDE

W. R. Patton, Said to Be Discouraged Over His Affairs Tied Note to Corn Knife.

In This He Intimated That He Would Kill Himself and Hasn't Been Seen Since.

Veedersburg, Ind., Oct. 9.—W. R. Patton, a farmer living near this city, is missing. He left home Monday morning to cut corn. Failing to return for dinner, search was instituted. The corn knife which he had been using was found with a message written in pencil on a grocer's sack and tied around the handle, indicating that he would commit suicide. He was seen by a neighbor at 11 o'clock Monday forenoon, sitting on the bank of Coal creek, and said he was fishing. Searching parties have since been out and the creek dragged in the locality where he was last seen. Patton moved here last spring to the farm which he had previously bought. He was in debt and is said to have been worried on this account. His father, Russ Patton, committed suicide several years ago by hanging. He is about forty years old and has no children.

LIGHT AND HEAT

Interurban Company Wants to Branch Out at Kokomo.

Kokomo, Ind., Oct. 9.—Since the Indianapolis Northern Traction company secured a franchise to build and operate an interurban line there has been talk that the company would apply for a franchise for an electric lighting and heating plant in Kokomo. This was done at the last meeting of the council, when C. W. McGuire, assistant to G. F. McCulloch, had introduced a petition asking for a fifty-year franchise and posting a $5,000 bond. The ordinance was referred to the electric light committee. There is a sentiment among the councilmen to grant the franchise and open the field to competition.

First Month's Showing.

Richmond, Ind., Oct. 9.—The municipal electric plant, which has been in operation one month, is being watched with interest by the people of Richmond. The report of the commissioners for September shows that the receipts during the month were $1,282.97, and the operating expenses, with the cost of new material purchased, $2,983.17. The people who have opposed municipal ownership say this is but a forerunner of what the result will be to the city treasury in the course of a few years.

Woman Badly Injured.

Anderson, Ind., Oct. 9.—Mrs. E. H. Pyle, forty-three years old, was probably fatally injured, north of this city. She was leading a cow that took fright and started to run. The woman became entangled in the rope with which she was leading the animal and was dragged for nearly 100 yards. Mrs. Pyle had a thigh bone broken and was unconscious when picked up.

Postmasters Elect Officers.

Hammond, Ind., Oct. 9.—The Indiana Postmasters' association has closed a two days' convention here. The following officers were elected: President, W. A. Banks, LaPorte; vice president, F. E. Farley, Crown Point; secretary, W. E. Peck, Remington; treasurer, A. H. Leist, Michigan City. The next meeting will be held at Michigan City.

To Rebuild at Once.

Jonesboro, Ind., Oct. 9.—The school board has decided to reconstruct a school building similar to the one that was burned. The insurance companies will adjust the losses this week, and it is believed that work on the new building will begin at once. A subscription is being raised among the citizens to help buy the children books.

Condemnation Proceedings.

Logansport, Ind., Oct. 9.—Judge Gamble will name apraisers to fix the value of the property of the Wabash and Erie canal towpath. The condemnation proceedings were brought by the Fort Wayne, Logansport & Lafayette Traction company.

Had No Claim On Him.

Evansville, Ind., Oct. 9.—Mrs. Lizzie Coakley arrived here from Robinson, Ill., in search of her husband. She found him married to another woman. Ten years ago her husband was granted a divorce, but it seems that Mrs. Coakley had forgotten it.

Boy and Revolver.

Rochester, Ind., Oct. 9.—While playing with a revolver the thirteen-year-old son of John F. Hill accidentally shot himself in the abdomen. The ball has not yet been located, and the boy is in a critical condition.

Father Maloney Ill.

South Bend., Ind., Oct. 9.—The Rev. Father Maloney of the Order of the Holy Cross, is ill of appendicitis, and an operation will be performed at St. Joseph's hospital.

French Miners Go Out Because Their Claims Are Ignored.

Paris, Oct. 9.—The national committee of the French miners' conference has decided to declare a general strike, to begin today. It is estimated that 4,000 men have already struck in the northern coal fields and that 5,000 men have struck around St. Etienne. The decision of the national committee of the Miners' Federation to declare a general strike throws the responsibility upon the mine owners, because the latter have declined to discuss the claims of the miners. The mine owners took this attitude on the ground that the questions of the regulation of work and old age pensions were now before parliamentary committees and the strike had already broken out without warning and without motives. It is calculated that French miners number 162,000, of whom only 60,000 belong to the federation.

BOXED HIS EARS

Servia's Queen Has It Out With Her Royal Spouse.

Belgrade, Servia, Oct. 9.—To revenge herself upon King Alexander for stopping her "pin money," Queen Draga created scandalous scenes before the courtiers. The king reproached the queen with being the curse of his life. Draga retorted with coarse abuse, accusing the king of a liason with her sister Helen, and even boxed the king's ears.

THE TRYING TIME

In a young girl's life is reached when Nature leads her uncertain steps across the line which divides girlhood from womanhood. Ignorance and neglect at this critical period are largely responsible for much of the after misery of womanhood. Not only does Nature often need help in the regular establishment of the womanly function, but there is almost always need of some safe, strengthening tonic, to overcome the languor, nervousness and weakness, commonly experienced at this time.

Dr. Pierce's Favorite Prescription establishes regularity. It is a strengthening tonic, soothing the nerves, encouraging the appetite and inducing restful sleep. It contains no alcohol neither opium, cocaine or other narcotic.

"I wish to tell you the benefit we have received from using your remedies," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Two years ago my daughter's health began to fail. Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout; weighed 170, the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 120. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' I said I fear I shall. I must say, doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

PRESIDENT ROOSEVELT was able to drive out yesterday and review the marching veterans at Washington City from his carriage.

REPUBLICANS should not forget that November 4 is election day. Of course you are busy these prosperous times, but do not forget to be at home that day. That is the day to put yourself on record in favor of the continuance of prosperity.

HON. JOSHUA M. SPENCER is a man of spotless character and of unusual ability and popularity. As an evidence of the latter he was twice elected mayor of Rising Sun without solicitation on his part of support from any party. He is just the kind of material to make a useful congressman.—Madison Courier.

"THE men who are blocking the settlement of the coal strike will have to yield to the pressure of public opinion. Too much credit cannot be given Mr. Mitchell for his patience and conservatism. The people are with President Roosevelt in this matter and, as I said, the people's will is to triumph."—Senator Beveridge.

THE fact that since the republicans came into control in Indiana a few years ago the state debt has been rapidly decreased is quite satisfactory to the taxpayers. They believe in decreasing the debt and that is what the republicans have done. The opposite was true of the democrats when they were in power in the state. The taxpayers will continue to stay with the debt paying party

IN 1896 the laboring men worked short hours and few days in the week and at any kind of wages they could get. They have seen better times ever since the republicans came into power in 1897. The wage earners of the country helped very materially in restoring prosperity for the majority of them voted the republican ticket. This year they will vote to continue prosperity. They will take no chances with democracy which made such a miserable failure when given control from 1893 to 1897.

IT SEEMS quite probable now that Senator Hanna will speak in Seymour, October 23. He comes into Indiana from Cincinnati and it is likely he will go over the B. & O. S-W. to Vincennes and from there to Evansville where he is to speak. Wednesday's Indianapolis News confirms this arrangement and states that Senator Hanna will stop for speeches at Seymour and Washington. Seymour made application for this sort of an arrangement and we trust that there will be no change of plans. We want Senator Hanna to come this way.

Street Car Troubles.

Columbus is having some exciting times with her street car systems. John S. Crump owns the system now in operation in the city. Recently the city council granted a franchise to Jos. I. Irwin to construct his interurban line into the city using Washington street, the principal business street, along which Mr. Crump's line already runs. The conditions of Irwin's franchise were that he was to move Crump's track to one side the necessary number of feet and lower the water mains without expense either to the city or to Mr. Crump. A few days ago Crump concluded to double track his line through Washington street and distributed rails along the route ready for laying. This was to shut out the Irwin line as the business men along the street would not tolerate three tracks in the street

Just after last midnight between fifty and a hundred teams appeared on the street under the direction of the Irwins and laid several hundred feet of track on the disputed street at one side of Crump's line and without disturbing the latter's track. Mr. Crump says this morning that he will lay his track anyhow and intimates that he may place it on the other side of the original track. It is likely that the matter will break into court quite soon.

Fees Reported.

At the meeting of the board of commissioners Monday, county officers reported fees collected as follows:

James W. Lewis, Clerk	$525.65
A. H. Manuel, Auditor	88 65
J. L. Ford, Sheriff	450.45
H. F. Bruning, Recorder	69.25

Chas. F. Eddinger, Supt. of Poor Asylum reports as follows for the past quarter: Receipts $244.10; expenditures, $322.08.

Play Appreciated.

The presentation of the play, "Devil's Island," at the opera house last night was thoroughly enjoyed by a crowd that almost filled the opera house. The players generally carried their parts well and the special scenery added much to the attractiveness of the play.

Harry M. Miller made a business trip to Ft. Ritner today.

LANGUAGE OF CIGARS

THE TERMS USED IN THE TRADE ARE GREEK TO MOST SMOKERS.

Some Refer to Size, Some to Shape and Others to Color—Few Tobacco Users Know Them Apart, and They Are Much Misused.

Whenever the average untutored tobacco lover wishes to indicate to his envious friends that he is in possession of a cigar of the first quality, he usually says that he has a perfecto. By perfecto he means the best cigar obtainable, and as a rule he applies the name to all products of the Havana factories. But in truth, declares an intelligent writer in the Kansas City Journal, a good many cigars that never saw Havana are genuine perfectos, and a good many made in the most famous factories of the Cuban capital are not. The word, as a matter of fact, does not refer to the quality of a cigar at all. It is simply a term used to describe the shape. A perfecto may cost $1, and it may cost 2½ cents.

There are half a dozen cigar terms thus misused by the average smoker, and there are several times as many words of the same sort whose meaning he is utterly unable to fathom. What native, corn fed smoker, for instance, knows the difference between a panetela and a Reina Victoria? And how many know whether there is a real difference between a maduro and an oscuro? Yet all of these terms are the common property of cigar makers all over the world. Like many cigar brand names, they are of Spanish origin, but the wanderings of Havana tobacco and Cuban cigars have taken them into all countries and all languages.

The great majority of cigars are put up fifty in a box, with thirteen on the top row, twelve on the row next to the top, thirteen on the next and twelve on the bottom row. When a londres cigar is packed 100 in a box in two bundles tied with a ribbon, it becomes a Reina Victoria, which is Spanish for Queen Victoria. Early in the late queen's reign a Cuban manufacturer invented this method of packing and called the resultant bundle after Great Britain's sovereign. The name has remained ever since.

The word perfecto is a term indicating a certain shape in cigars. A perfecto is a smoke having what is generally called the "cigar shape"—that is to say, it is swelled near the end which is lighted and tapers gradually down to the point, or head. The end of a cigar which a smoker puts in his mouth is known among cigar makers as the head. The other end, that which is lighted, is called the tuck. When, as often happens in a perfecto, the tuck is very small, it is called a needle tuck or feather tuck. All others follow these lines more or less closely.

A thin, straight cigar, with little more thickness in the middle than at the tuck, is called a panetela. The average panetela is slightly longer than a perfecto, though the matter of size has nothing to do with the shape. Panetelas are esteemed because they burn more regularly and are usually better because more easily made. The virtue of the perfecto is that its smaller tuck lights more readily, and its more artistic curves give it greater beauty.

A londres is a sort of cross between the perfecto and the panetela. It is a perfecto from the head to the thickest part, and from there on to the tuck it is betwixt and between. Usually the slope from the thickest part to the tuck has a gradual curve. The tuck as a rule is as large as that of a panetela.

A partegas is a cigar shaped much like a londres, except that the slope from the thickest part to the head is usually not so rounded. It is a shape not now as fashionable as it used to be, and even when cigars are genuine partegas the box is seldom stamped with the name.

A conchas is a small blunt cigar. As a rule it is a very satisfactory smoke, and usually it lasts as long as a perfecto. This is because that thin tuck of the latter burns down rapidly. The opera is a very small cigar of any standard shape. It derives its name from the fact that it is designed for a short smoke between the acts, and very often it is called on entr-acte. The brevas is a large, clumsy cigar, good for an hour's puffing. The largest size of all is the Napoleon. Sometimes Havana Napoleons are six or seven inches in length. The blacker ones are positively terrifying.

The better grades of cigars are usually made in several shapes and sizes. There may be, for instance, the La Flor de Habana perfectos, the La Flor de Habana panetelas, the La Flor de Habana operas, the La Flor de Habana partegas and the La Flor de Habana conchas. The label is the same on all of the sizes and shapes, but on the front of the box the name of the shape is stamped.

On one end of each box of cigars will be noted another word. Sometimes it is colorado, sometimes it is claro and at other times it is maduro. This indicates the color of the cigars within, or, as uninformed smokers say, the "strength." The lightest of all cigars are a yellowish brown. They are called claros. Next in order come the colorado claros, which are a darker brown, and then come the colorados, which are about midway between black and yellow. After the colorados come the colorado maduros, which are a dark brown, and then the maduros, which are well nigh black. Formerly another color was in vogue. This was the oscuro, and it was a shiny black. But of late the fashion has been for light cigars, and the word oscuro has almost dropped out of use.

Hickory Nuts Scarce.

The abundance of almost every other product of the soil, vine or tree, is in striking contrast this year to the hickory nut crop. which is practically a total failure. It is doubtful if there is a wagon load of hickory nuts in the entire county, a condition that is quite aggravating to the small boy who usually lays in his supply for long winter evenings. About the only abundance of native tree nuts this year seems to be of the beech and butter-nut variety. There are also some walnuts and hazelnuts, but they are by no means as plentiful as common. For the first time in many years the beech trees are fairly loaded with nuts and while tedious in the gathering as well as the eating they will be gathered on theory that half a loaf is better than none. But hickory nuts this winter will be a luxury and must be furnished by other states, as the scarcity in this county is reported as applying to all parts of Indiana.—Ex.

Historical Society.

Many of the counties in Indiana are organizing local historical societies. The purpose is to gather up local history from the time of the early settlers in Indiana down to the present and from that collected from every county in the state prepare a history of Indiana. This is a good idea and should meet with favor everywhere. The school teachers of the state seem to be taking most interest in the work. The gathering of such material should not be delayed for some of those who were pioneers in Indiana are still living and their personal knowledge is worth getting and recording.

Notice.

An ordinance of this city provides that any person who throws or deposits slops, garbage offals, manure, or other refuse matter in the streets or alleys without first providing barrels, buckets, bins or other receptacles to receive the same shall be subject to a fine. Further notice will not be given in this particular and offenders will be prosecuted according to law. Therefore keep the streets and alleys clean and thereby save trouble.

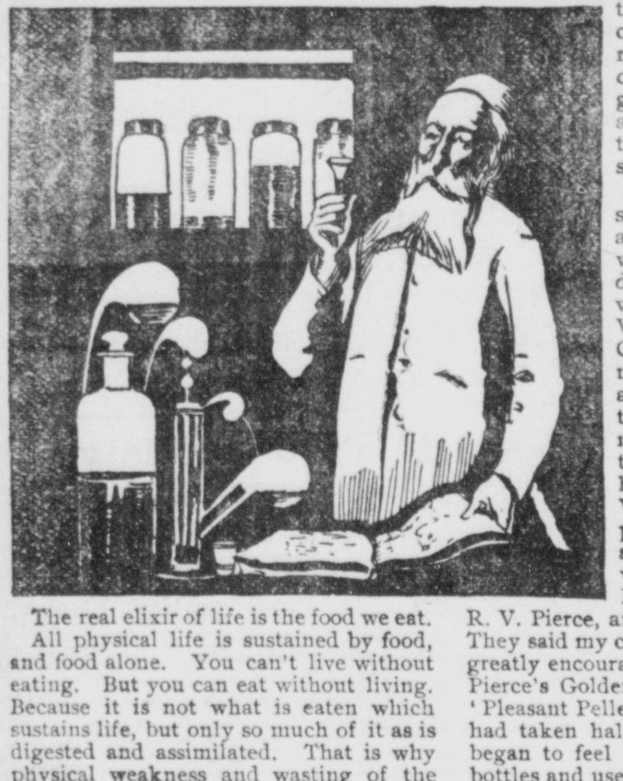
THE ELIXIR OF LIFE.

The Secret of it Revealed.

The old philosophers had a dream that there existed or could be compounded a rejuvenating elixir, by the use of which men could live on and on in youthful vigor and enjoyment. Some thought that there was a fountain of youth to be discovered, and so went far afield to seek it. They failed to find the fountain, but they found new lands. Others shut themselves in secret chambers and with crucible, alembic and retort sought to distil this elixir. They too failed, but they created chemistry. Only a few years ago Dr. Brown-Sequard was announced as having at last discovered this precious elixir. But his discovery also failed under test. And yet the elixir of life exists. It is such a common-place thing that we overlook it.



The real elixir of life is the food we eat. All physical life is sustained by food, and food alone. You can't live without eating. But you can eat without living. Because it is not what is eaten which sustains life, but only so much of it as is digested and assimilated. That is why physical weakness and wasting of the body point inevitably to disease of the stomach and its allied organs of digestion and nutrition.

NO MAN CAN BE STRONGER THAN HIS STOMACH.

In a condition of perfect health the measure of a man's strength would be the quantity of nutrition *contained in the food eaten*. When there is disease of the stomach and its allied organs, the measure of strength is the quantity of nutrition *extracted from the food eaten*. Disease of the stomach means loss of nutrition, and loss of nutrition means weakness. That is why weak stomach means weak man. Stomach "trouble" which is spoken of so lightly is often the root of heart "trouble," lung "trouble," kidney "trouble," etc. These are all organs of the body, and when the body as a whole is deprived of nutrition because of "weak" stomach, the organs which make up the body are, of course, the real sufferers.

If this theory is not sound how can we account for the cures of heart, liver, lungs, kidneys, etc., by Dr. Pierce's Golden Medical Discovery, which is essentially a medicine for the cure of disease of the stomach and other organs of digestion and nutrition? Such cures are a matter of constant surprise to those who sought only relief from stomach "trouble" and found health for the whole body in the use of the "Golden Medical Discovery."

"I had been afflicted for four years with what the doctors called indigestion and liver complaint," writes Mr. J. M. Clark, of Heard, Tenn. "I had tried medicine until I had given up all hope of getting well. I wrote to Dr. Pierce and he advised me to use his 'Golden Medical Discovery.' I commenced its use at once, and after using two bottles of the 'Discovery' and some of Dr. Pierce's Pellets I was able to do a reasonable day's work. When I commenced taking it I weighed 156 pounds, and when I quit I weighed 178. The 'Golden Medical Discovery' is the best medicine for such diseases and to build up the constitution that I ever knew of, and I take pleasure in recommending it.

"You may publish this if you wish, and if any one doubts it being true if they will refer to me I will write to them myself, and if they will try it they will be convinced."

WEIGHT IS THE WITNESS.

There is a witness to the soundness of the cures effected by "Golden Medical Discovery," whose testimony is unimpeachable. It is the witness of weight. There's no sentiment in the scales. No imagination in the pound weights. They deal absolutely with the solid facts of solid flesh. When a man is sick with indigestion and liver complaint he generally loses flesh. When he takes "Golden Medical Discovery" and cures the indigestion and liver complaint his lost flesh is regained. That was the case with Mr. Clark. He gained twenty-two pounds as the result of his cure; twenty-two pounds of solid flesh, not flabby fat.

"For six long years I suffered with indigestion and my liver and kidneys, which baffled the best doctors in our country," writes Mr. E. L. Ransell, of Woolsey, Prince William Co., Va. "I suffered with my stomach and back for a long time, and after taking a 'cart-load' of medicine from three doctors I grew so bad I could hardly do a day's work. Would have death-like pains in the side and blind spells, and thought life was hardly worth living. I decided to consult Dr. R. V. Pierce, and his staff of physicians. They said my case was curable and I was greatly encouraged. I began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' as advised. Before I had taken half of the second bottle I began to feel relieved. I got six more bottles and used them, and am happy to say I owe my life to Dr. Pierce and his medicines. These words are truths, as I live, so if this testimonial can be used in any way to be of benefit you need not hesitate to use it. I shall stand for the Invalids' Hotel and Surgical Institute as long as life lasts."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, and builds up the body with sound flesh and solid muscle. It is the best of tonics for those in a debilitated and nervous condition, speedily restoring them to vigorous health.

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, *free*. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's offer of free consultation by letter, is not to be confused with the spurious offers of "free medical advice" made by men or women without medical knowledge or training, and who are therefore incapable of giving genuine medical advice.

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

NOTHING TO PAY

except expense of mailing to obtain a copy of the great medical work, Dr. Pierce's Common Sense Medical Adviser, containing over a thousand large pages and more than 700 illustrations. This book in paper covers is sent *free* on receipt of 21 one-cent stamps, to pay expense of mailing *only*. For the cloth-bound volume send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

X-RAYS WRONG

Ohio Man May Die As Result of Needless Operation.

Cleveland, O., Oct. 9.—Believing that he had swallowed his false teeth during sleep Tuesday morning and being supported in his belief by the operator of an X-ray machine, Frank Buttner, a well-known local contractor, yesterday had his aesophagus opened its entire length to recover the missing article. No teeth were found, however, and the operation was a severe one. A search of the bed in which Mr. Buttner slept Monday night disclosed the teeth between the mattresses. Mr. Buttner's condition is serious. The object which the X-ray operator held to be the teeth was a swelling due to laryngitis.

Rare Antiquities.

Athens, Oct. 9.—Dr. Sotiriadis, the custodian of antiquities, announces the discovery near Cheronea, the place, where, according to Plutarch, the Macedonians buried their dead after the defeat of the Athenians and the Bans by Philip of Macedon 338 B. C., of a number of skeletons in a good state of preservation. Alongside one of the skeletons lay a Sarissa or pike carried by the Macedonian phalanx.

Macedonian Revolution.

Sofia, Oct. 9.—A messenger has arrived at Rilo, a village on the Macedonian frontier, bearing a telegram addressed to the Macedonian committee at Sofia and signed by Nicoloff, one of the leaders of the revolutionists who recently escaped imprisonment, saying that a general insurrection had broken out in a dozen districts in Macedonia.

Double Lynching.

Memphis, Tenn., Oct. 9.—Two negroes were lynched at Newburn, Tenn., last night. They were charged with having killed a young farmer near Dyersburg last Saturday.

TERSE TELEGRAMS

President Roosevelt reviewed the G. A. R parade in his carriage.

Dan Patch failed to break the world's record at Terre Haute making a mile in 2:01.

One person was killed and twelve injured in a wreck on the Pennsylvania in New Jersey.

The famous Latonia steeplechase will be opened for cross-country events during the coming fall meeting.

Col. Frank Martin of Indianapolis, was elected commander-in-chief of the Sons of Veterans at Washington today.

Jessie Morrison was released from the Kansas state penitentiary yesterday on the approval of her $10,000 bond.

The ceremonies of the three hundredth anniversary of the Bodleian library at Oxford England were witnessed by more than 1,000 guests.

Slight disturbances are reported from a few places, but the strike field is generally quiet, with but little increase in the number of men at work.

William J. Bryan has begun a campaign on behalf of the fusion ticket of Nebraska that will continue with little interruption until November.

The schooner Anna Marie, of Alpena, Mich., was wrecked and Capt. Gordon and three of the crew, with Mr. Ferguson, of a rescue party, were drowned.

The North German Lloyd steamer Kronprinz Wilhelm, ran into and sank the British steamer Robert Ingham, during a dense fog, off Beachy Head. All save two of the crew were rescued.

SOME WRITERS.

Buffon wrote in lace ruffles and Alexandre Dumas in shirt sleeves.

Milton composed his "Paradise Lost" on a large armchair, with his head thrown back.

Bret Harte's first literary success was a little book called "Condensed Novels," in which he parodied some prominent novelists of the day.

Austin Dobsin, the poet, wanted in early life to be an engineer and was preparing for that profession when his parents persuaded him to enter the civil service.

When Fox had eaten heartily, he would retire to his study, envelop his head in a napkin soaked in vinegar and water and work sometimes ten hours in succession.

Allison is said to have consumed twenty-four years in the preparation of his "History of Europe," but many important literary enterprises were also carried on by him during this time.

It is related of Hall Caine, the novelist, that he once worked in the Laxey lead mines, in the Manx mountains, in place of a young man who was ill to keep the young fellow's position for him.

Mrs. Bolton, the Indiana composer of the once popular song "Paddle Your Own Canoe," received the inspiration to write while sewing and fitting the first carpets for the old statehouse of Indiana.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

A Typical South African Store.

O. R. Larson, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railroad station and about twenty-five miles from the nearest town. Mr. Lawson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by C. W. Milhous.

One dose one cent, 35 doses 35c, home home treatment, your own physician, with guarantee of cure, if you take Rocky Mountain Tea. Madison Medicine Co., Madison, Wisc. W. F. Peter Drug Co.

Lame backs are lame no more
Week ones regain their strength.
This is the every-day labor in Seymour
Of Doan's Kidney Pills
Our citizens are making it public
Here's a cause of it:

Mr. Samual Buhner, of St. Louis avenue, tobacconist says: Doan's Kidney Pills cured me of kidney trouble which had caused much annoyance and suffering. I had lameness in my back especially acute when I brought any train on the muscles of my loins and that was also a bladder difficulty. Learning of Doan's Kidney Pills sold by C. W. Milhous druggist, I procured a box and almost at once obtained positive relief. I had previously tried many other remedies but never found anything to equal Doan's Kidney Pills. I can strongly recommend them to others."

For sale by all dealers, price 50 cts. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. Remember the Doan's and take no other.

Bronchitis for Twenty Years.

Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure." All druggists.

HOUSTON.

Misses Grace Rust and Ora Brown, of Brownstown, visited here Saturday and Sunday.

School opened Monday with James Tatlock and Lemma Brown as teachers. There will be about a five months term.

Elmer Cummings and W. O. Scott will teach in Owen township this year.

We have telephone connections with several points in Brown county now.

Mrs Jessamine Brown has gone on an extended visit to Green county to see her daughter, Mrs. Pearl Browning.

Reisa Lutes is laying the foundation for a new church house at Peck.

Mrs. Fidella Carmichael and daughter, of Nebraska, are visiting relatives here.

Never Ask Advice.

When you have a cough or cold don't ask what is good for it and get some medicine with little or no merit and perhaps dangerous. Ask for Foley's Honey and Tar, the greatest throat and lung remedy, it cures coughs and colds quickly. All druggists.
